2. Lemonade Activity was organized on September 29, 2020.
3. Fun with Shapes Activity was held on October 19, 2020.

Nursery

4. Pink Colour Day was organised on October 5, 2020.
5. Dussehra was celebrated on October 22, 2020.

Prep

6. Germination Activity was conducted on October 8, 2020.
7. Navratri Celebration was held on October 15, 2020.
8. Dussehra was celebrated on October 22, 2020.

English Rhyme Recitation Competition

"Poetry is when an emotion has found its thought and the thought has found Words." – Robert Frost.

What a beautiful way it is to express something through innocent words and actions in a melody with all smiles and giggles! Keeping this thought in mind, Daycare conducted English Rhyme Recitation Competition on September 26, 2020. The fact of it being a virtual competition didn't hamper the spirits of our little rising buds. The kids were beautifully dressed and displayed props to support the rhyme. They recited the rhymes of their choice with full confidence, expression, and vivacity. The enthusiasm that the children portrayed in the presentation was commendable and the teachers as well as the judges were spellbound with the performances of our kids.

Lemonade Activity

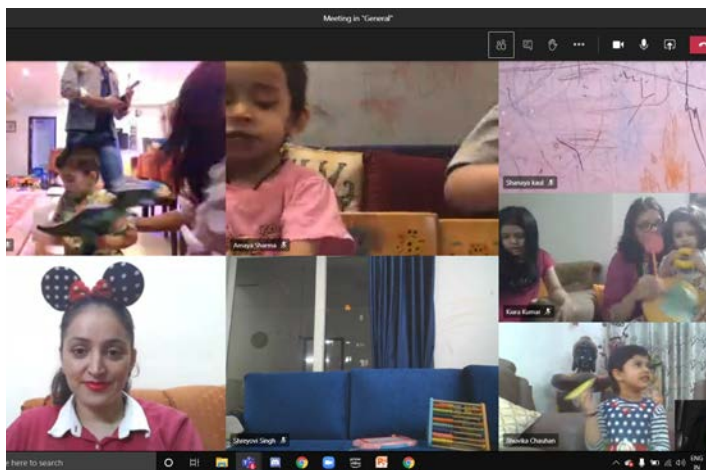

L is for Lemonade; L is for Lemon.

L is for Lollipop, that tastes like heaven.

Children are active learners rather than passive recipients of the information. If the children are provided an optimum learning environment and the opportunity to explore by their own, then the learning becomes joyful and long-lasting. Keeping this in mind, Daycare conducted a 'Lemonade Activity' on September 29, 2020. The activity was held with the motive of knowledge sharing with the students. The students were told the benefits of drinking lemonade during summers. The excitement of the children knew no bounds as the teachers demonstrated to them how lemonade is made. The children had a great time squeezing, sprinkling and stirring the drink with their parents!

The activity ended on a fun note with the children getting to drink with the product of the process. This healthy and instant lemonade was relished by all the children.

Fun with Shapes

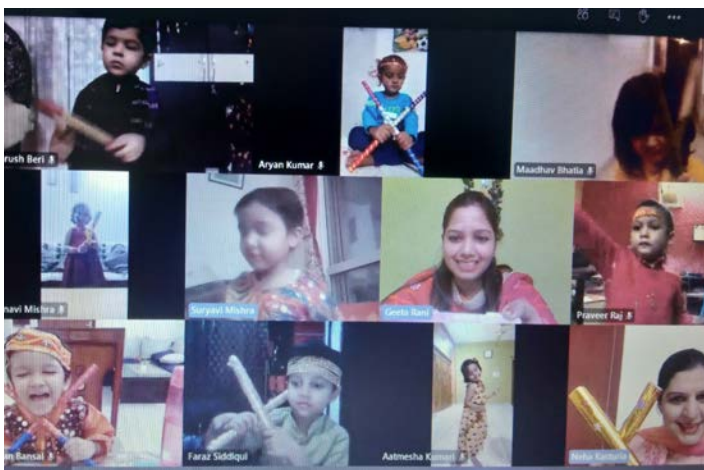

Circles, Triangles, Square and Rectangles...Our world is full of different shapes and understanding these different types of shapes enables the students to be more in tune to the world around them. To make them understand the different shapes, Daycare organised 'Fun with Shapes Activity' for its students on October 19, 2020. Our little buds spoke, sang and talked about their favourite shape with lots of conviction and fervour. With this hands-on activity, the kids were able to have a perfect understanding about the shapes.

Pink Colour Day

To add one more colour to the colourful world of our little dipsites, Nursery celebrated Pink colour day on October 5, 2020. Children recapitulated pink colour by dressing up in different shades of pink colour outfits and watching the pink objects displayed by their teachers. They were overjoyed when their teacher narrated the story of 'Three Little Pigs' with the help of puppets and giggled as they heard the fox 'huff and puff' to blow up the pigs' houses. Children got excited as the teacher instructed to start the pink balloon craft. The kids blew up their balloon and turned it to a little pig and oink like it as they held the craft in their hands. It was indeed a day full of learning, fun & laughter.

Dussehra Celebration

A time of celebration,

A time for victory of Good over Evil,

A time when world see the

Example of power of good.

The victory of good over evil. That's what this auspicious festival of Dussehra signifies. To make our children more aware of the vast Indian festivals, Nursery children got together to celebrate Dussehra on October 22, 2020. Our tiny tots dressed themselves in colourful traditional attires. A puppet show on the story of Ramayan was organized for them which the children watched very enthusiastically. This was followed by foot tapping dandiya music. The teachers along with the children grooved to the dandiya beats and enjoyed themselves. It was an evening full of excitement and fun for our children.

Germination

'One of the best gifts we can give future generations are trees.'

Plants are essential for all the living things and for the survival of our planet Earth. Learning to grow a plant is crucial for preschoolers as it develops a sense of love towards nature. They also develop the traits of reliability and responsibility when it comes to taking care of their own plant day after day and helping it grow. In an endeavour to make learning creative and experiential, Prep organized 'Germination Activity' on October 8, 2020. The children were thrilled when the teacher instructed them to sow some green lentils in small pots of soil and watered them carefully. Our little babies expressed their emotions towards their own plant by giving it a beautiful name of their choice. They were also told about the factors necessary for the growth of a plant. The session ended with singing of rhymes related to plants and germination, by the children along with their teachers. It was a memorable session for everyone as it involved learning along with giving life to a little seed.

Navratri Celebration

Navratri is an auspicious Hindu festival specifically dedicated to the worship of Goddess Durga. This festival marks the victory of Good over Evil as Maa Durga defeated the demon Mahishasura. So, to honour this festival and to add the flavour of celebration amongst the kids, grade Prep organized 'Navratri Celebration' on October 15, 2020. The online session looked sparkling as the teachers and the kids got dressed up in their best traditional outfit. The session started with the narration of story behind celebration of Navratri and Durga puja by the teachers and the children listened to it very attentively. To add the element of creativity in the celebration, the children also made a marvelous image of Maa Durga along with the teachers. They were thrilled to decorate the image with mirrors, sequences, glitters etc. It came out as an exceptionally beautiful craft. Navratri celebration can never be complete without Dandiya dance. So, the level of excitement got too high when the children as well as the teachers performed Dandiya with their dandiya sticks. It was an unforgettable experience for the teachers as well as for the kids as they enjoyed to the fullest.

Dussehra

Festivals are an expressive way to celebrate glorious heritage, culture and traditions. Dussehra is a Hindu festival which commemorates the victory of Lord Rama over evil king Ravana. To rejoice this special festival with the kids, grade Prep organized 'Dussehra celebration' on October 22, 2020. The story of Ramayan was depicted by the teachers with the help of colourful stick puppets of all the characters of Ramayan. The children were overwhelmed by the story and they thoroughly enjoyed singing a beautiful bhajan of Lord Rama along with their teachers. Few parents too volunteered to sing the bhajans for the kids, which was truly an icing on the cake. Some children took the opportunity to share their views through rhymes about the different characters of Ramayan and this made the session more interactive. The session ended with a beautiful Ravana craft. The children made the craft and decorated it with their own creative ideas. It was indeed a wonderful celebration for the kids, teachers as well as for the parents.
